DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 10 December 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 6,651,504 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Double Patenting

2. The Statutory Double Patenting rejection of claims 26, 27, and 28 as claiming the same invention as that of claims 35, 36, and 37 of U.S. Patent No. 6,651,504 has been withdrawn. The Examiner had previously determined that the missing step recited in claims 35, 36, and 37 of the previous Patent was inherent in the method claimed by present claims 26, 27, and 28. However, upon further review, the Examiner has determined that the rejection should have been a Nonstatutory Double Patenting rejection and the missing step is not "inherent" in the invention as now claimed. The Terminal Disclaimer filed on 10 December 2004 has overcome all Nonstatutory Double Patenting rejections and therefore places the application in condition for allowance.
